

COMPLIMENTARY SCHOOL VISIT PROGRAM

The Culture & Education Section of the Consulate General of Japan in Detroit offers a free educational program for students in grades K-12. In presentations approximately 30 to 60 minutes long, a member of the Consulate staff shares information about Japan and its culture with students through videos, slideshows, stories, and hands-on activities.

Presentations can include a general introduction to Japan, followed by information on a specific topic and ending with a Q&A session. However, the content can be fully customized to fit the needs of the students, teacher, or school.
